We combine creativity, strategic ideas
and technology to create bespoke
solutions that drive your success.

LATEST WORK

Duo Nutrition

DUO NUTRITION is a brand that redefines pet food as a celebration of the equal, unspoken partnership between humans and their dogs. Our challenge was to translate philosophy into a logo that captures the essence of togetherness. The solution lies in the submark: a simple yet powerful oval, split evenly down the middle. This design embodies the concept of a duet: two distinct halves, balanced and complementary, coming together to form a unified whole.

Everyday

Everyday Sea Moss is a premium wellness brand offering natural sea moss, rich in over 92 minerals and vitamins. The product is designed to effortlessly support energy, immunity, and glowing skin every day. Our task was to create a brand identity, packaging design, web design, and photoshoot that bring a fresh perspective to sea moss, a bright yet minimalist visual language that repositions the product as modern, appealing, and seamlessly fitting into everyday life.

Nymph

Nymph Haircare is a haircare brand that celebrates femininity, free spirit, and our deep connection with nature. Its philosophy is inspired by ancient Greek mythology: nymphs, divine spirits of nature, symbolize grace, beauty, and strength. We created the brand identity and packaging design, capturing its mythological inspiration and the harmony between natural beauty and modern aesthetics.

TESTIMONIALS

What our clients say about working with us.

Let's work together

"You've created a true work of art that perfectly captures the idea of an emotional connection with the customer. Your work exceeded our expectations, and this was echoed by everyone on the team. Every element of the design reflects a genuine love for animals and a high level of professionalism. Everything has been thought through down to the smallest detail and contributes to creating a strong emotional response from the consumer. We're truly happy we had the opportunity to work with you on this project and hope to collaborate again in the future on new projects."

DUO NUTRITION
Team, DUO Nutrition

"We're glad we found you and waited for your availability, i'm sure we'll work together again soon. The process was smooth and you understood what we wanted to achieve, so we're really happy. "
